

SONS of LIBERTY

Rocking stages since 2014 **Sons of Liberty** are **the UK's own Hard Southern Rock Band**.... a group of well-travelled musicians from Bristol and South Wales.

The boys were drawn together by a shared love of the incredible music of the Southern States of America.... and their desire to share this with the people of the UK; an energetic band that delivers an authentic and fresh show based on professional musical ability

After 3 years of building a solid reputation as an all-southern-rock covers band, in 2017 they stepped things up and set out to write and record some original material.... The result was the highly acclaimed debut **...Shinola EP**.... 5 tracks of home-ground hard-hitting southern rock 'n' roll, with the songs still featured regularly on Rock Radio stations such as Hard Rock Hell Radio.... There was plenty more in the tank too! The follow up **Aged in Oak** was released to great acclaim in September 2018, stepping things up a notch and featuring the single 'Damned If You Do'.... voted #4 EP of The Year by **New Wave Of Classic Rock**

2019 saw the band writing and recording their first full LP **Animism** - which was released through Roulette Records on October 25th - 11 tracks of pure Awesomism!
